

The last telephone system you'll ever need.

In the current climate, every business has to scrutinise every investment more carefully than ever to ensure they are getting the very best value. This is true particularly when it comes to telephony systems, where choice is plentiful, and technology moves so quickly that traditional telephony technologies are already becoming obsolete.

Swyx develops software-based telephony systems that work like any other software application, such as email, instant messaging and CRM, through your existing data network and server application. So you can take full advantage of all the benefits of business-class VoIP – without having to invest in expensive new telephony hardware.

In addition, the Swyx system has the potential to build into a powerful business tool. Because a Swyx system is

Microsoft® Windows® based, it integrates seamlessly with your existing IT infrastructure, including all your individual business applications such as security systems, Microsoft® Office® applications, Finance and CRM systems and customer support infrastructure, giving you one communication system that will move and grow with your business no matter how many people, sites or locations you expand into.

Swyx is constantly developing its solutions to meet the changing needs of your business. So whatever your business, and whatever your stage of development, choosing an IP telephony solution from Swyx will give your business more possibilities, more agility, more choice and more communication, making it the last telephone system you'll ever need.

About Swyx

Swyx was established in 1999 and now has offices across Europe, with headquarters in Dortmund, Germany. Today the company is recognised as a market leader for IP telephony in major European countries and has enabled in excess of 4500 businesses across the continent to take advantage of the business benefits of IP telephony and associated applications. Swyx is renowned for its product innovation and superior business understanding, and its achievements have been recognised many times through technical and business awards, journalist and analyst comments and reviews, product tests and customer testimonials.

Swyx's management team and supervisory board are recognised industry leaders who have all held senior positions within the telecommunications industry. Everyone at Swyx is dedicated to providing world class IP telephony solutions and applications that continually push the boundaries of what is believed possible, while continually delighting its customers and business partners by providing the best possible products and services to make them more competitive in their markets.
